PROFILE

Senior backend developer with 15+ years in software and 8+ years of production Haskell, from web applications to distributed protocols and their on-chain components.

I favour strong types, property-based tests and small, well-reviewed changes. I settled on Haskell because it lets me refactor with confidence. AI-assisted development is part of my workflow, backed by types, tests and careful review. I'm expanding my work into Rust and exploring AI agent engineering, with a particular interest in verification and making agent-generated code more reliable.

EXPERIENCE

Senior Haskell Developer · IOG

Aug 2022 – present

Input Output Global · remote

- Core developer on Hydra, an open-source Layer 2 protocol: a distributed state machine in Haskell with on-chain validators, a WebSocket/HTTP API, networking and persistence.
- Own features end to end, from protocol logic through property and mutation tests to docs and release. Involved in writing the protocol specification. Handle security advisories for the project.

`Haskell` `QuickCheck` `Nix` `WebSockets` `Plutus`

Senior Haskell Developer (contract) · MELD Labs

Dec 2021 – Aug 2022

Singapore · remote

- Backend and smart contract development in Haskell for a DeFi lending and borrowing protocol.

`Haskell` `Plutus`

Senior Haskell Developer · Fleming Protocol

Jul 2021 – Nov 2021

- Smart contracts and a web interface for a DAO coordinating funders and scientists, with IPFS for document sharing.

`Haskell` `Plutus` `IPFS`

Senior Haskell Developer · Betterteam

Nov 2020 – Nov 2021

- Hiring platform that syndicates applicants to many job boards. Haskell/Yesod backend with many third-party integrations.

`Haskell` `Yesod` `PostgreSQL`

Senior Haskell Developer · Banyan Infrastructure

Mar 2019 – Jul 2021

- Financing platform for solar farm loans. Haskell/Yesod application backed by Hyperledger.

`Haskell` `Yesod` `Hyperledger`

HIGHLIGHTS

- 8+ years of Haskell in production across five companies.
- In my free time I try to contribute to open source, including GHC.
- Comfortable owning a feature from design to tests to docs.
- Remote and async since 2015.

WORKING STYLE

Prefer small PRs, thorough reviews and tests that fail for the right reason. Happy to mentor.

LANGUAGES

- Serbian – native
- English – fluent

BEYOND CODE

Dad. Skateboarder and snowboarder, free-climber, Vim enthusiast.

EXPERIENCE (CONTINUED)

Haskell Developer · **Inchora** Feb 2018 – Mar 2019

- CRM for landlords, letting agents and tenants. Haskell/Yesod backend; frontend migration from React to PureScript.

`Haskell` `Yesod` `PureScript`

Haskell Developer (part-time) · **Serokell** Oct 2017 – Dec 2018

- Core team on a large blockchain node codebase in Haskell. Great codebase and colleagues from whom I learned a lot.

`Haskell` `Distributed systems`

Founder · **Devnull Org d.o.o.** Jan 2016 – present

Self-employed · Belgrade

- Consultancy for projects building on Cardano, with emphasis on the Hydra protocol.

`Haskell` `Cardano` `Hydra`

Senior Software Engineer · **Interventure** Apr 2015 – Feb 2018

Outsourced engineering for German and Swiss clients

- **Rocketmedia, Apr 2016 – Feb 2018:** insurance web application for a large Swiss insurer. Angular frontend, Laravel backend.
- **Exconcept GmbH, Jun – Oct 2016:** e-commerce portals on Angular and Symfony2; EC2 setup and continuous deployment.
- **NEXUS Netsoft GmbH, May 2015 – Apr 2016:** e-commerce platforms on Symfony2 with Angular.js and jQuery.

`Angular` `Laravel` `Symfony2` `Elasticsearch` `AWS`

Software Engineer · **ITWeb** Jun 2012 – Apr 2015

- Leading South African IT news publisher with 500k+ daily visitors. Company websites in PHP/MySQL and Android apps in Java.

`PHP` `MySQL` `Java / Android` `Joomla`

Software Engineer · **First Basic Court in Belgrade** Jan 2010 – May 2012

- Internal Java desktop tools (document scanning, juror payroll, PDF generation) and the public website (PHP) for Serbia's largest court.

`Java` `PHP` `CodeIgniter` `MySQL`

Freelance Developer · **Webmarmun** Jan 2008 – Jan 2012

- Freelance web projects. Where I discovered, by accident and a lot of free time, that I love programming.
